Service		
Standard linear FEM	60-80 €/hour	Linear equations single physics/phenomena solution in steady state, time or frequency domain, eigenvalues: *Linear solid mechanics *Heat Transport *Diffusion phenomena *DC electric currents
Advanced or nonlinear FEM	80-120 €/hour	Solution of nonlinear or multiphysics phenomena
CFD Calculations	80-120 €/hour	Solution for laminar and turbulent flows, nonisothermal and fully compressible flows, including convective mass transport of chemical species.
Topology and geometry optimization	100-120 €/hour	Shape and structure optimizations of designs, automated design.
Molecular Dynamics, Monte Carlo, DFT, custom development of numerical models and methods	Price is negotiated on project basis.
